dohaharby8@gmail.com | +20 155 767 2021 | Menofia, Egypt | [github.com/Doha-Harby](https://github.com/Doha-Harby) | [linkedin.com/in/doha-harby-4a1602266](https://linkedin.com/in/doha-harby-4a1602266)

## PROFESSIONAL SUMMARY

---

Junior .NET Backend Developer with hands-on experience designing and delivering scalable web applications using ASP.NET Core, C#, Entity Framework Core, and SQL Server. Proven ability to build secure RESTful APIs with JWT authentication, implement Clean Architecture and SOLID principles, and apply design patterns including Repository Pattern and Unit of Work. Completed government-funded Full Stack .NET program (DEPI/DEBI) with production-deployed projects. Eager to contribute to a backend engineering team and grow within a collaborative Agile environment.

## TECHNICAL SKILLS

---

**Languages & Frameworks:** C#, ASP.NET Core MVC, ASP.NET Core Web API, .NET 8/9/10, LINQ

**Database:** SQL Server, T-SQL, Entity Framework Core, Query Optimization, Database Design, EF Core Migrations

**Architecture & Patterns:** Clean Architecture, SOLID Principles, Repository Pattern, Unit of Work, 3-Tier Architecture, Dependency Injection, CQRS, MediatR, AutoMapper

**Security & Auth:** JWT Authentication, ASP.NET Core Identity, Role-Based Authorization (RBAC), Stripe Payment API

**Frontend:** HTML5, CSS3, Bootstrap 5, JavaScript (ES6+), Razor Views, React (basics), TypeScript (basics)

**DevOps & Tools:** Git, GitHub, Docker, Postman, Visual Studio 2022, VS Code, SQL Server Management Studio

**Methodologies:** RESTful API Design, Agile/Scrum, Code Review, Soft Delete Patterns, Background Services, SignalR

## PROJECTS

---

### AutoHub — Full-Stack Car Marketplace Platform | Oct 2025 – Dec 2025

ASP.NET Core MVC · SQL Server · JWT Authentication · Stripe Payment API · Bootstrap 5 | Graduation Project (DEBI) |

Live: [auto-hub.runasp.net](https://auto-hub.runasp.net)

- Architected a full-stack car marketplace using ASP.NET Core MVC with Repository Pattern and Service Layer, enforcing separation of concerns across Presentation, Business Logic, and Data Access layers.
- Engineered a secure authentication and authorization system using JWT and ASP.NET Core Identity, implementing role-based access control (RBAC) for buyer and seller account types.
- Integrated Stripe Payment Gateway to process real-time car purchase transactions, delivering a PCI-compliant checkout flow for end users.
- Designed and optimized a normalized SQL Server database schema with advanced filtering and scalable data retrieval to support a high-volume product catalogue.
- Delivered a responsive, cross-browser-compatible UI using Bootstrap 5 and Razor Views, ensuring consistent UX across desktop and mobile devices.

### Tasaneem — Patient Management System | Oct 2025 – Dec 2025

ASP.NET Core MVC · EF Core · SQL Server · AutoMapper · Production Deployment | Live: [testdoctortasaneem.runasp.net](https://testdoctortasaneem.runasp.net)

- Built a production-deployed clinical management system for physiotherapy and nutrition clinics, implementing full CRUD operations for patient profiles, diagnoses, and contact management.
- Implemented Soft Delete (IsDeleted flag) across all data entities, preserving complete audit trails and enabling safe data restoration workflows without permanent data loss.
- Applied AutoMapper for clean DTO-to-Entity mapping between Business Logic and Data Access layers, reducing boilerplate code and improving overall maintainability.
- Engineered a patient body-metrics tracking module (weight, chest, abdomen) that generates printable clinical progress reports for medical staff.
- Deployed the application to a live production environment (runasp.net), demonstrating real-world hosting, environment configuration, and release management experience.

## EDUCATION & TRAINING

---

### B.Sc. in Computers and Artificial Intelligence | University of Sadat City — Sadat City, Egypt | Oct 2023 – Present

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Object-Oriented Programming, Artificial Intelligence, Computer Networks.

**Full Stack .NET Development — Government Scholarship** | Digital Egypt Pioneers Initiative (DEPI) / Jun 2025 – Dec 2025

- Completed intensive government-funded training covering ASP.NET Core, C#, SQL Server, and front-end technologies; collaborated in cross-functional Agile teams and presented graduation project to an industry panel.

## CERTIFICATIONS

---

- [Full Stack .NET Development](#) — Digital Egypt Builders Initiative (DEBI), Dec 2025
- [HCIA Big Data](#) — Huawei, Aug 2024
- [ICPC 2024 Participant](#) — Alexandria, Jul 2024

## ADDITIONAL INFORMATION

---

**Languages:** Arabic (Native), English (Intermediate)

**Soft Skills:** Analytical Problem-Solving, Team Collaboration, Peer Code Review, Time Management, Self-Directed Learning, Agile Sprint Delivery

*Open to full-time, internship, and remote opportunities.*
